

NEW BONDWAY

London

WELCOME

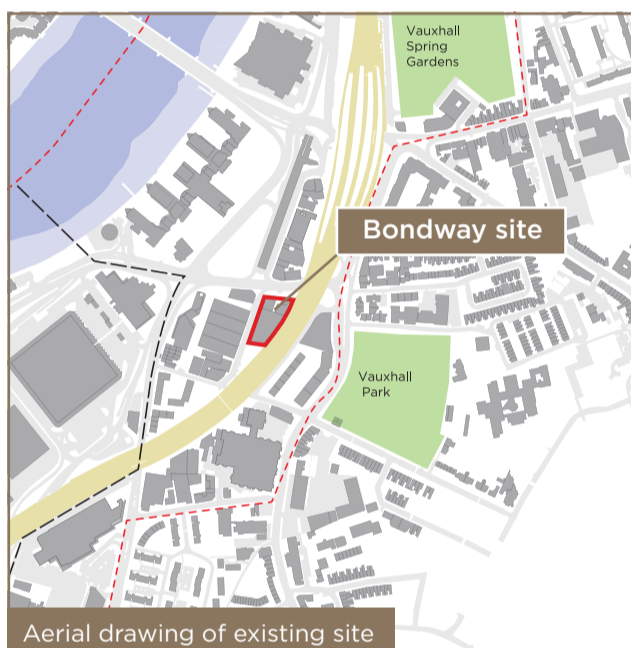

Welcome to our exhibition which sets out our plans to develop the site at 69-71 Bondway in Vauxhall.

The exhibition aims to provide you with the opportunity to view the final proposals and ask any questions you may have about the scheme.

The owners of the site, McLaren Property and Citygrove who formed a joint venture back in November 2013, have now submitted a planning application to LB Lambeth for replacement of the existing building with a slender 50 storey North Tower facing Vauxhall Cross, a 23 storey South Building and office accommodation.

We believe our plans to deliver a new residential, office and retail development of the highest architectural quality will contribute to the regeneration of Nine Elms on the South Bank and the emerging cluster at Vauxhall.
